## Over 250 years of gardening experience

### Royal Botanic Gardens, Kew

Originally laid out in 1759, the Royal Botanic Gardens, Kew has a remarkable heritage and performs a unique role in international plant science and conservation. As a UNESCO World Heritage site, Kew has the largest and most diverse botanical collections under its care. Kew is also an internationally respected centre of scientific excellence.

Based on a second site at Wakehurst, Kew's Millennium Seed Bank is the largest global conservation project in the world and will eventually hold the seeds of at least half of all known plants.

For more information please visit [www.kew.org](http://www.kew.org)

### Spear & Jackson

With over 250 years of experience in manufacturing quality garden tools, Spear & Jackson combine traditional production methods with the latest manufacturing technology.

Designed with durability, comfort and performance firmly in mind, our products appeal to the keen gardener, landscaper and horticultural professional alike.

For more information please visit [www.spear-and-jackson.com](http://www.spear-and-jackson.com)

“

## The tools we use & recommend”

Kew's horticultural team have worked closely with Spear & Jackson throughout the product development process.

Products have been put through rigorous testing to ensure that the level of performance and quality befits the brand.

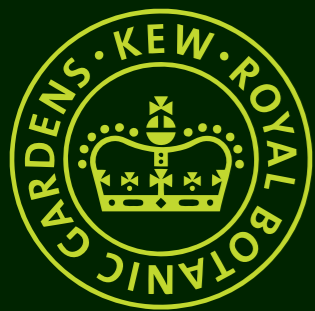

The result is a unique range of digging, cultivating, and garden cutting tools that are genuinely 'used and recommended by Kew'.

Making gardening easier  
and more enjoyable”

24 - 32

**10**  
YEAR  
GUARANTEE

### FSC Approved

Kew are widely recognised as a leading centre for conservation and so, as you would expect, all of our handles are made from the finest ash, from well-managed forests.

**100%**  
From well-  
managed forests  
**FSC® C018736**

## “ Packaging Designed to Sell”

At Spear & Jackson we understand the importance of visually impactful packaging in encouraging trade up and increasing sales. Dual branded packaging has been designed to boost visibility in store and maximise consumer appeal.

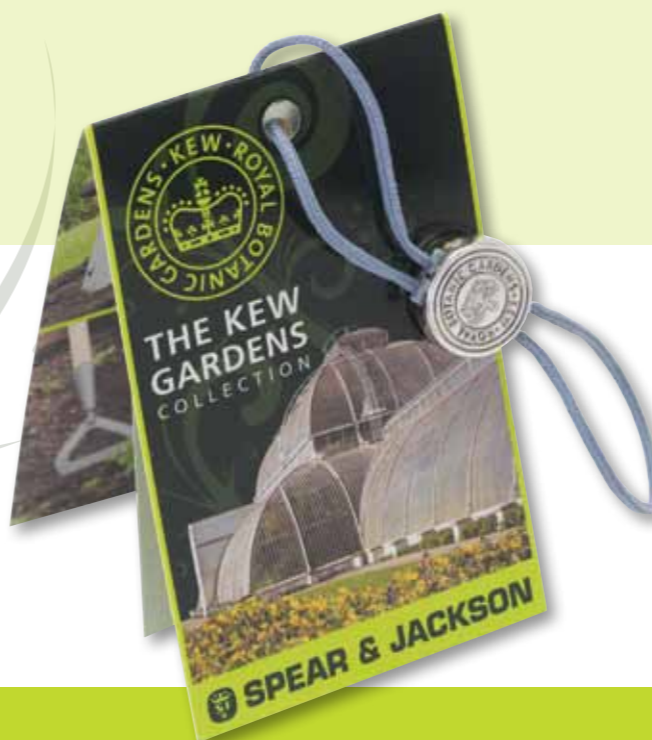

### “Try Me” Packs

Eye-catching “try-me” packs allow the consumer to handle the product and explore its features and functionality before buying, helping them choose the right product and delivering enhanced sales for the retailer.

### Quality Perception

A stylish swing tag and seal enhances the perception of the Kew Gardens Collection as a premium line, adding value as well as giving products that designer look.

“  
**Exceptionally strong,  
built to last”**

Our Neverbend Carbon range of garden tools have a hammer finished epoxy coating for improved resistance to rust, humidity and alkalis in the soil.

Harvested from FSC approved, well managed forests, our weatherproof handles are made from the finest ash.

Every Neverbend Carbon product comes with a fifteen year guarantee.

Long handled cultivators and hand tools include a leather wrist strap for easy storage

Longer tangs help avoid hitting your knuckles on the blade

Double width treads for more comfortable digging

# Neverbend Carbon

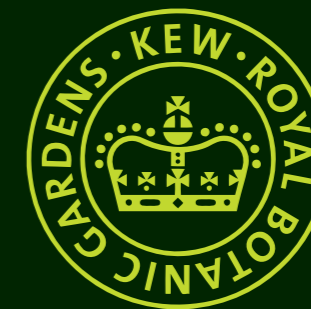

FSC approved split YD ash handles, weatherproofed for greater durability

Longer socket for increased strength

Solid forged from a single piece of steel for greater strength

Two chamfered edges so you can hoe on both the forward and backward stroke

# THE KEW GARDENS COLLECTION

**SPEAR & JACKSON**

Cultivators have longer handles which reduce the need for bending and help against back strain

“

**Making gardening easier and more enjoyable”**

Our Razorsharp Garden Cutting range includes a wide selection of high performance secateurs, shears and loppers to suit every requirement.

Every Razorsharp product comes with a ten year guarantee.

### **Bypass Secateurs**

**“Ideal for healthy plants, shrubs or green stems”**

Two blades create a scissor-like action to produce a clean cut.

Helps minimise bruising on green stems.

**NEW**  
Premium  
Metal Handle  
Secateurs

# Razorsharp Garden Cutting

**THE KEW  
GARDENS  
COLLECTION**

**SPEAR & JACKSON**

### **Anvil Secateurs**

**“Ideal for cutting older or dead wood”**

A single blade is used to press the wood against the anvil, crushing the stem until the cut is complete

Helps minimise stem twisting.

**NEW**  
Heavy Duty  
Metal Anvil  
Range

### **Mechanical Advantage**

**“Ideal for cutting older woody growth”**

Geared or ratchet secateurs and loppers are easy to use and require less effort than conventional products. They allow thicker, harder branches to be cut in short steps rather than in a single action.

**10  
YEAR  
GUARANTEE**
