# Introduction

**SPEAR & JACKSON** enjoy a highly deserved reputation for innovative, well designed, high quality garden tools.

The re-introduction of the highly popular **Neverbend** range of **solid forged carbon steel** spades and forks and accompanying long handled cultivators and hand tools underlines our commitment to a customer lead approach to our product offering. We are confident that the eye catching new livery on this range communicates the strength and benefits of solid forged garden tools to the committed gardener.

The range of **Neverbend Stainless** garden tools has also benefited from a change of livery and we believe perfectly complements the newly reintroduced solid forged carbon lines.

The **Professional** range of solid forged garden tools completes the Neverbend line up. This compact range of highly specified hard wearing tools is aimed at the garden professional using tools in the most demanding conditions.
